CARE & MAINTENANCE GUIDE

KENTWOOD™ floors are factory-finished with a durable finish that is designed to provide years of protection and easy care. Some simple care and maintenance procedures will help to keep your KENTWOOD™ floor looking its best and help to protect it from unnecessary wear and damage.

- Sweep or vacuum the floor regularly to keep it clean and free of dust, sand and other abrasive materials.
- Place area rugs or doormats at entryways to help prevent sand, grit, oils, dirt and other abrasive or staining materials from being tracked onto the floor surface from outdoors. (Avoid rubber-backed or similarly dense matting materials that may trap moisture between the mat and the floor; choose mats that enable airflow instead.)
- Place protective mats at high-use work areas such as sinks, ranges, service counters and workstations.
- Protect the floor from any exposure to liquids, water and other forms of moisture. Blot up any spilled food, drink or other liquid immediately. **This is especially important for all styles of Elements by Kentwood EDGE, Cork and Bamboo flooring. Under no circumstances allow liquid to remain on the surface of these floors longer than 30 minutes.** Never wet mop the floor when cleaning. Avoid walking on the floor with wet feet or footwear. Damage caused by flooding, broken pipes, wet mopping or any other exposure to liquid or moisture is not covered by the product warranty.
- Ensure that environmental conditions are maintained with a temperature of 65-75°F (18-24°C) and humidity at 35-55% at all times. Hardwood flooring reacts to changes in the environment. Excessive heat or dryness can result in gapping or splitting; excessive humidity can result in cupping. Gapping, splitting, cupping or other problems resulting from exposure to improper environmental conditions are not covered by

the product warranty.

- If the floor is installed over a radiant heating system, never allow the surface temperature of the floor to exceed 82°F (28°C). Avoid dramatic temperature changes; always adjust the system gradually in 5° increments. It is recommended that a dedicated quick recovery thermostat be installed to allow the temperature of the radiant heating system to be accurately controlled. **NOTE: This instruction applies only to those styles of KENTWOOD™ floors specifically approved for use over radiant heat. Installation of KENTWOOD™ flooring that is not approved over a radiant heating system will void the product warranty and may result in damage to the floor.**

- Put felt protector pads on the feet of all furniture, display stands, file cabinets and other accessories that will be placed directly onto the floor surface. Inspect regularly for wear and replace as necessary.
- Avoid letting sharp or pointed objects come into contact with the floor surface. Do not walk on the floor with high heeled shoes, sports cleats, or other types of footwear which may damage the finish or cause indentations to the surface.
- Pets' nails will scratch and mark the floor surface. Keep pets' nails trimmed to minimize damage to the surface.
- Do not drag, push or roll appliances, furniture or any heavy object across the floor. Use heavy duty moving mats, dollies, or other moving aids to protect the floor surface.
- Hardwood flooring will naturally undergo a change in color as it adjusts to the ambient light conditions of the installation environment. The degree of color change varies by species. To ensure a uniform change, it is recommended that you do not place area rugs on the new floor for sixty days after installation. Thereafter, periodic re-arrangement of furniture and area rugs will help ensure that your flooring colors evenly.

CLEANING

- Sweep or vacuum the floor regularly to keep it free of dust, grit and other abrasive materials.
- Blot up any food, drink or liquid spills immediately. **This is especially important for all styles of Elements by Kentwood EDGE, Cork and Bamboo flooring. Under no circumstances allow liquid to remain on the surface of these floors longer than 30 minutes.**
- For more thorough cleaning, use THERAPY BY

KENTWOOD™ Spray Cleanser (available at your dealer). Follow the product instructions.

- Do not use any household cleaners, oils, soaps, waxes or any abrasive materials or scouring agents on the floor.

Failure to follow these floor care instructions may void this warranty.

PRODUCT WARRANTY

This warranty applies to the original purchaser and the original site of installation only. The conditions and terms of this warranty are as stated herein and may not be altered by any dealer, installer, agent or distributor of KENTWOOD™ flooring.

MANUFACTURING WARRANTY

KENTWOOD™ warrants that KENTWOOD™ flooring shall not contain manufacturing defects in excess of industry standards (5% of total flooring quantity). If manufacturing defects are present in excess of industry standards, the defective pieces should be returned to the original place of purchase PRIOR TO INSTALLATION. If KENTWOOD™ deems the flooring to be defective, KENTWOOD™ will replace it with an equivalent quantity of the same or similar product at no charge to the customer. If KENTWOOD™ is unable to furnish an equivalent replacement product, KENTWOOD™ may, at its sole discretion, elect to refund to the customer a portion of the original purchase price equivalent to the value of the defective portion of the floor. Under no circumstances will the value of a warranty claim exceed the original purchase price of the product. **IT IS THE RESPONSIBILITY OF THE CUSTOMER TO INSPECT ALL PIECES OF FLOORING FOR DEFECTS PRIOR TO INSTALLATION. FLOORING THAT HAS BEEN INSTALLED WILL BE DEEMED TO HAVE BEEN ACCEPTED BY THE CUSTOMER AND WILL NOT BE ELIGIBLE FOR REPLACEMENT.** KENTWOOD™ accepts no responsibility for labor costs incurred to remove or install products.

Wood, cork and bamboo are natural products with naturally-occurring imperfections and variations in color, grain and appearance. Actual flooring products may differ in color, grain and appearance from illustrations and samples, and variations in color, grain and appearance will exist in any quantity of the flooring itself. These are not considered defects.

FINISH WARRANTY

When installed in a residential application, KENTWOOD™ warrants that the polyurethane factory finish on

KENTWOOD™ floors will not wear through under normal residential traffic conditions and use for a period of:

- 50 years from the date of purchase for products in the **COUTURE COLLECTION BY KENTWOOD™** and **KENTWOOD ORIGINALS™** product collections, and
- 25 years from the date of purchase for products in the **ELEMENTS BY KENTWOOD™** product collections.

When installed in a light commercial application, KENTWOOD™ warrants that the polyurethane factory finish on KENTWOOD™ floors will not wear through for a period of 3 years from the date of purchase under light commercial conditions and use. Light commercial applications include salons, professional business offices and reception areas, light retail or specialty stores and boutiques. KENTWOOD™ floors are not recommended for food and beverage service operations, or heavy duty retail stores (eg: food, drug and hardware stores); use in such applications will not be covered by this warranty. Note: KENTWOOD™ floors made from American Cherry or American Walnut are not recommended for commercial use of any kind.

Note: These finish warranties do not apply to KENTWOOD™ products with a Natural Oil or UV-Cured Oil finish.

If wear-through does occur within the warranty period, KENTWOOD™ will, at its sole discretion, either repair the affected portion of the floor or replace it with an equivalent quantity of the same or similar product at no charge to the customer. If KENTWOOD™ is unable to repair the product or is unable to furnish an equivalent replacement product, KENTWOOD™ may, at its sole discretion, elect to refund to the customer a portion of the original purchase price equivalent to the value of the affected portion of the floor. This is the sole remedy provided by this warranty. Any other incidental or consequential damages or costs incurred by the customer as a result of the imperfect piece of flooring, including any labor costs incurred to remove and re-install affected portions of flooring, will not be covered by this warranty.

To be eligible for a warranty claim, the wear-through must be evident and visible in more than 10% of the total floor surface. Isolated areas of surface wear in high traffic areas (doorways, hallways, service counters, workstations, etc) are not considered normal wear-through and are not covered by this warranty.

Gloss reduction is not considered surface wear.

Scratches, indentations, marks, stains or other damage caused by negligent or accidental exposure to pebbles, grit, sand or other abrasives, pets, insects, high heeled or cleated shoes, fire, product spills, excessive moisture, heat or dryness are not considered normal wear and are

not covered by this warranty.

THERE ARE NO OTHER EXPRESS OR LIMITED WARRANTIES EXCEPT AS SET FORTH ABOVE.

Problems resulting from exposure to levels of heat and/or humidity other than those specified herein are not covered by this warranty.

Where the flooring is installed over a radiant heating system, the installation must conform to the manufacturer's Special Instructions for Installations Over Radiant Heat, including the placement of approved underfloor heat sensors. After installation, the system must be controlled so that the surface temperature of the floor does not exceed 82°F (28°C) and any changes in temperature are applied gradually to avoid shocking the floor. **NOTE: This instruction applies only to those styles of KENTWOOD™ floors are specifically approved for use over radiant heat.
